Nonfiction Report Using Hstry.co

Using your student account at Hstry.co, you will create a collage of text boxes, images, quizzes, and videos that illustrate an understanding of your nonfiction topic.

Your project should include:

- Banner and cover, which can be different pictures if you so choose.
- Four text boxes, providing information about your content. These text boxes should contain at least four sentences each, and must also contain at least one direct text excerpt each.
- Six image boxes, containing not only pictures, but two to three sentences describing what is being illustrated. Be sure that the image credit caption contains the source page of your image.
- Four quizzes, with correct answers, as well as follow-up information which elaborates (provides more detailed information) on the answer.
- Three “Did You Know” boxes, containing your most interesting or unusual facts. These can be illustrated.
- One video, no more than four minutes in length. If your video is too long, you’ll need to crop it using Safe Share (<http://safeshare.tv/>).

As you read the book, you should begin entering facts and images into your project. We will work in-class on the project Tuesday 1/06 and Wednesday 1/07, so bring your book to class.

The project is due Thursday, January 8.
